## AN APPEAL FROM THE GOVERNOR OF TRIPURA FOR CENSUS OF INDIA 2027

My Dear Sisters and Brothers of Tripura,

***Namaskar.***

Our beautiful state of Tripura stands on the threshold of a vital national milestone as we prepare to launch the first phase of the Census of India 2027 consisting of Houselisting i.e., identification and numbering of all structures whether residential, commercial including nonresidential or vacant and Housing Census comprising details of every household having separate kitchen.

A Census is far more than a massive administrative exercise or a routine headcount; it is a historic event that directly shapes the future of our society. The authentic, micro-level data collected during this process forms the solid bedrock upon which the Central and State Governments design welfare policies, allocate financial resources, and build crucial infrastructure—including schools, hospitals, roads, and housing schemes. To ensure that the benefits of developmental planning reach every single household, from our bustling urban centers to the remotest parts of our rural areas including forest and hills, it is absolutely essential that every resident of Tripura is accurately counted.

As the first phase of this great national task begins in our state, the Houselisting & Housing Operations (HLO) will be conducted field-wide for 30 days, from 1st August 2026 to 30th August 2026. Preceding this house-to-house field exercise, the Self-Enumeration (SE) portal will open for 15 days, from 17th July to 31st July 2026, allowing citizens to conveniently log in and

securely fill in their details. I would like to appeal to all Government Servants, Teachers, Students and residents to complete their Self-Enumeration on the starting date itself and also act as guide to assist others in the process.

A Census is only as robust as the truthfulness of the data collected. Incomplete or hesitant responses directly impact the state's resource mapping, planning and formulation of policies for socio-economic development. For the first time, advanced digital methodologies are being deployed to make this entire process completely secure and transparent, ensuring that your personal data remains strictly confidential and protected.

Therefore, I earnestly urge all residents and community leader across the state of Tripura, to participate wholeheartedly in Census 2027. Besides, my appeal to every household when the designated census officials and enumerators visit your homes, please welcome them, and treat them with due respect by extending your full cooperation and provide honest and accurate data to the Enumerators while visiting your house. Fulfilling this solemn civic duty is not just an administrative requirement, but a direct contribution to the progress, policy precision, and socio-economic empowerment of our state. Our collective participation is the ultimate guarantee of our collective progress.

Let us stand together to ensure that no household is left behind and no voice goes uncounted. Your accurate response today guarantees a stronger, well-planned, and highly prosperous Tripura tomorrow.

"Janganana Se Jan Kalyan"

**Jai Hind.**
